

### Magnification of the macro extension tube

The shooting distance and shooting magnification change according to the position of the focus ring.  
The following table shows reference values for when the focus ring is on the nearest side.

|               | Lens                            | Lens only          |                      |                                | MCEX-11<br>Mounted |                      |                                | MCEX-16<br>Mounted |                      |                                |
